RE: Local Authority Performance Indicators Report 2021

Dear Chief Executive,

One of the National Oversight and Audit Commission's (NOAC) main functions is to scrutinise local authorities against relevant performance indicators. In this regard, NOAC publish annually the *Local Authority Performance Indicator Report*. Relevant data is gathered from local authorities and other bodies which is used as a starting point for NOAC's report.

As a first step in the data gathering process for the above report the NOAC will be hosting an Information Workshop on Wednesday 23 February 2022 from 11.00am to 12.30pm. The workshop should be attended by data co-ordinators and other relevant members of staff that are nominated by your office to NOAC at info@noac.ie. The workshop will feature presentations by NOAC and the LGMA on information on the updated guidelines, the technical aspects of entering the data on the LGReturns systems, as well as to answer queries from Data Co-ordinators.

We now invite you to nominate the Data Co-ordinator for your local authority and confirm that a representative will attend the workshop. Please respond on or before the 17 February 2022 by emailing us at info@noac.ie.

The workshop will to be conducted remotely via videoconferencing, using Webex technology. A link for same will be provided in due time.

Also attached, is the Agenda for the upcoming workshop.

George Antonescu
